On Saturday, October 27, 2012, NYSE Euronext will be participating in the SIFMA industry-wide test in which all firms are being asked to test connectivity to the Exchanges from their backup sites.

In addition to registration with SIFMA or any other market, NYSE Euronext is requesting that participating firms register for this test by contacting Chris Calcaterra at 888.689.7739. Registration must be done by noon on Wednesday, October 24, 2012.

Logistics for the test are as follows:

- Systems will be available at approximately 8:00 a.m. with a normal opening at approximately 9:30 a.m. and an early close at 12:00 p.m.
- All Common Customer Gateways will be open for order, cancel, report, and drop copy service over production connections.
- ArcaBook will be available over production IP's and multicast lines.
- All SIP (OPRA, CT and CQ) and Proprietary Market Data Products (i.e., NYSE and NYSE MKT Open Book Ultra, Alerts…) will be available over production IP's and multicast lines.
- Stocks will be opened, quoted, and available for automatic execution (firms need to cross their own orders to generate trades). Appropriate data will be sent to NMS, DTCC and others.
    1. For NYSE ARCA Equities, NYSE ARCA Options, and NYSE AMEX Options, firms may submit orders for any symbols.
    2. For NYSE we are requesting you use the following symbols: CAT, DAL, GE, MPC and UAL. You may use any or all of these symbols but we are requesting you use these symbols only.
    3. For NYSE MKT we are requesting you use the following symbols: VTG, UEC, MDW, URG and IMO. You may use any or all of these symbols but we are requesting you use these symbols only.

When orders are submitted, acknowledgement received will be proof of connectivity
